

## Utah Regional Leadership Education in Neurodevelopmental Disabilities (URLEND) Survey

We invite you to participate in a short [20-question multiple choice survey](#) as part of a project conducted for the URLEND (Utah Regional Leadership Education in Neurodevelopmental Disabilities) program. We are collecting information from clinicians to develop a virtual training for providers focused on informed and shared-decision making. The online survey should take 5-10 minutes and is completely anonymous.

Your input will contribute significantly to enhancing our understanding of how shared decision making impacts the healthcare journey of families of children and youth with special healthcare needs. We encourage you to share the survey link with your colleagues.

Please respond by January 5, 2024.
